

Berrywell Lash & Eyebrow Tint

Berrywell cream tint from Germany is the leading European seller. More intense than Refectocil, Berrywell dye creates luscious eyelashes and eyebrows safely and effectively.

Augenblick – A momentary blink of the eye – is the keyword which is all about eyebrow and lash colours by Berrywell. It stands for the goal of the colouring process: pronounced eyes and an unforgettable look.

Here the eyebrow and lash colours create the ideal extension to the brilliant hair colours of Berrywell. What's more, due to the variety of the shades available, lashes and eyebrows can be perfectly coordinated to virtually every hair colour.

Berrywell eyebrow and lash colours make the lashes look captivatingly long and voluminous.

That is because Berrywell colours absorb deeply into every hair, up to the furthest front tip. Eyebrows will love Berrywell too: light browns can be easily highlighted with dark colouring and dark ones can be lightened.

Dermatologically tested –exclusively at salons.

F-1 Black 15 ml/.5 oz

Black is, and remains, the classic for eyebrow colouring because every single hair gets complete coverage – regardless of the natural hair colour.

F-2 Blue-Black 15 ml/.5 oz

Blue-Black is the perfect choice for certain facial types. It harmonises with eye make-up in blue shades. The colour accents brown and black eyelashes and eyebrows. Light natural shades are permanently and reliably coloured.

F-2.2 Blue-Blue 15 ml/.5 oz

Blue-Blue is the in demand colour for the fashion-conscious. That is because it allows 'hair-splittingly' precise coordination of the eyelashes with blue eyes or blue-shaded eye make-up.

F-3 Natural Brown 15 ml/.5 oz

Natural Brown is for those customers with brown hair emphasize their natural appearance. With brown, coloured hair, this is an ideal harmoniser for the eyebrows.

F-3.1 Light Brown 15 ml/.5 oz

Considered the most subtle of the browns, it gently accents light blond to light brown eyebrows and lashes.

F-4 Graphite 15 ml/.5 oz

Graphite discreetly and evenly covers 'salt and pepper' or white hair and gives a light to dark grey colour.

F-5.1 Chestnut 15 ml/.5 oz

Chestnut is a very balanced shade of red which strikes a balance between fashionably coloured hair and eyebrows.

832011 Cream Developer 61 ml

With only 3 percent hydrogen peroxide, Berrywell developer is a gentle partner in the coloration process. At the same time, it reliably helps to achieve a perfect colouring result every time.
