

# Frutique™ Skin Care

**Frutique™**

beauty by nature

## Created by Nature and Perfected by Science

The perfect collaboration of nature and science, the Frutique skin care collection includes eight products with powerful fruit-based formulas to regenerate, protect and nourish the skin. As the body's largest organ, skin thrives on the same nutrition that fuels the body, and fruit provides these vital antioxidants, vitamins and nutrients. Frutique has taken this exciting philosophy and used it to develop a skin care collection that works with the skin's biological processes. A daily dose of Frutique is recommended for all skin types.

## An Essential Boost to Your Skin's Diet

Frutique formulas boast naturally-derived fruit extracts and nourishing ingredients from Mother Nature including apple, grape, citrus, apricot, papaya, peach and berry extracts. They're delightfully fruity, potent and proven effective. Quality actives including retinyl palmitate, coenzyme Q10 and glycolic acid have been added to increase cellular activity and reduce the appearance of fine lines. The radiant result is healthy, younger-looking skin at any age.
