

# Lampe Berger

Purple Beauty Supplies is proud to have been selected the exclusive beauty distributor for this amazing product. It is intended solely for the use in salons, spas and the home and is not intended for resale.

The air is even more pleasant when, like Lampe Berger, you are celebrating 110 years of innovation. The first Lampe Berger lamp was created in 1898 by Maurice Berger, a pharmacy dispenser, to purify the air in hospital wards.

1930: Fragrance began to provide a pleasurable dimension; the taste for beautiful objects also reached its peak and the Lampe Berger lamp became a collector's item.

Jean Cocteau and Pablo Picasso were the first "well-known people" to appreciate it.

Then came innovations concerning the exploration of materials like porcelain and a widening of the range to make Lampe Berger accessible to all. A new direction was given at the beginning of the 1980s with a fruitful cooperation with designers, who conveyed a modern touch.

In 1996 the company became structured: a Research and Development department was created in order to continue to improve product performance. Since that date, innovations have been continuous and are systematically patented worldwide, in more than 20 countries.

Feeling good at home contributes to our day-to-day well-being. Lampe Berger makes it possible to improve air quality and to fragrance it. In this way it contributes to the creation of a pleasant olfactory environment.

To benefit fully from this well being, there are 3 simple steps:

1. Lampe Berger recommends the essentials for improving the quality of interior air:

- Air rooms regularly (at home and also in the salon) in order to renew the interior air Vacuum frequently, particularly if you have rugs or fitted carpets
- Keep surfaces dust-free
- Regularly clean all vents and ventilation grilles, and all the heating or ventilation system filters
- Using deodorizers is not an exemption from following good hygiene practices.

2. Eliminate unpleasant odors, tobacco, cooking etc.

Evaluate the olfactory well-being of your living environment: we invite you to perform the "Air Diagnosis" available on our website.

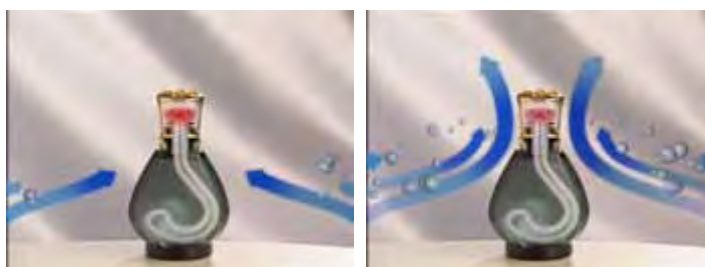

3. Perfume the house with the home fragrance of your choice.

## Cleaner, Perfumed Air in the Salon and at Home

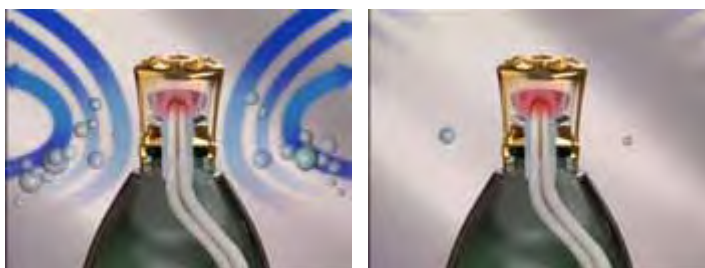

LAMPE BERGER, the leader in innovations for air care, cleans the room air by destroying unwanted odors and providing long-lasting fragrance, due to its exclusive diffusion system.

By eliminating unpleasant smelling molecules (tobacco, cooking, etc.), LAMPE BERGER cleans the interior air in your home.

Unlike any other system, which merely masks odors, the LAMPE BERGER diffusion system makes it possible to destroy, by catalytic oxidation, the molecules causing the odors of tobacco and cooking, and other domestic odors.

The heat developed by the catalysis attracts the unpleasant smelling molecules to it and breaks them down.

The catalyst of the burner supports the oxidation of these molecules and prevents them recombining.

The results of the efficiency of a Lampe Berger lamp in deodorizing a smoky atmosphere were proved by IAP Sentic in July 2006. Cigarette smoke is particularly representative in this test because it contains most of the molecules found in bad smells.

## Fragrances

LAMPE BERGER technology, a patented innovation, allows extremely fine diffusion of the fragrance into the room, giving unequalled, fast, long-lasting and homogeneous performance.

The high standards for the selection and quality of the raw materials used, the internal norms and the systematic controls at all stages of manufacture are guarantees of the safety of use of LAMPE BERGER home fragrances.

20 to 30 minutes of diffusion = several hours of well-being.

i.e. A maximum of 1 minute of operation per m<sup>3</sup>

Only 20 to 30 minutes for 2 hours' perfuming in a 30 m<sup>3</sup> (12m<sup>2</sup>) room.

The principal part of the LAMPE BERGER diffusion system is the AIR PUR System 3C® burner. The innovations, formalized in 6 international patents, represented by the burner in the improvement of interior air quality underline its difference.

**Chic Paris.** The real embodiment of a certain French savoir vivre, Paris Chic is a delicate floral fragrance, irresistibly inviting on a stroll through out the famous Jardin des Tuileries. A start note of refreshing citrus fruits (bergamot, grapefruit). - As a heart note, the sumptuous Bulgarian rose is enveloped in green notes, evocative of a rose garden. - Then come fruity notes, sun-drenched and sweet (Vine peach, lychee) underscored at the base by the softness of musks.

**Excursion to Kenya.** A distinguished composition combining rare spices, wild flowers and the richness of precious woods, enhanced by incense with mystic accents... - Top notes: spiced notes (saffron and star anise) giving the composition character. - Heart notes: warm, spiced and slightly wooded notes (liquorice, myrrh, coffee grains) meet a heady and sensual chord of white flowers (jasmine), tinted with a note of mystic accents (incense). - Base notes: warm, smooth and sensual notes (patchouli, vanilla, amber).

**Springs of Mekong.** Aux Sources du Mekong blends in total harmony the floral freshness of lotus flowers with the green, aquatic flavour of bamboo. - Top notes: green and fresh notes with Shiso leaves (a plant cultivated and used in Asia since ancient times, characterised by an aniseed odour) and cucumber. - Heart notes: an alliance of green and aquatic notes (bamboo stems) and the freshness of floral and crystalline notes (lotus flowers). - At the base, wooded (white cedar) and floral notes (iris, mint).

**Polynesian Dream.** A light, sunny and exotic fragrance... - A fresh start with notes of a sun ripened fruit (orange). - A sweet and exotic heart build around the monoi (tiare flower and coco oil) and solar flowers. - A sensual and warm base note (vanilla, almond).

**Journey to Bahia.** A fragrance of contrasting aromas, in which the mellow scent of caramel blends, with a rare and undefinable beauty, with the full flavour of coffee, the intoxicating warmth of amber and the sweetness of vanilla. - A mellow and mouth-watering start note (caramel, star anise) refreshed by an acidic and invigorating note (lime). - A heart note constructed around the full-flavoured and powerful smell of black coffee, associated with the sophistication of leather and flower notes (jasmine). - At the base, warm (vanilla, amber) and wooded notes (sandalwood, patchouli).

**\*AMBER POWDER.** This sensual fragrance starts sweetly with a chord vaguely reminiscent of roses, moving on to a heart of lily of the valley and vanilla, and finally giving way to a captivating base of ambergris, patchouli and transparent musks. A sweet voyage to the land of the senses, revealing notes that are both warm and captivating.

**\*WINTERWOOD.** A sensual perfume combining enchanting spices with the subtle fragrance of woody essences warmed by the sun.

**WONDER OF NEPAL.** With Majestic Wood, a little of the soul of the Orient is revealed in a Lampe Berger. - On top, the sandalwood takes on a floral facet - At its heart and as the base, cedar joins the sandalwood to give it richness and complexity.

**MYSTERY PATCHOULI.** A sensual, modern composition in which the patchouli note is wrapped in the soft, warm chords given off by vanilla balsam and amber... a real invitation to comfort and well-being.

**WHITE MUSK.** A gentle, velvety truly rounded fragrance where the silky notes of white musk adorn themselves with orange flower, the floral notes of jasmine and ylang ylang, and a base of woody, warm, langourous chords of vetiver and patchouli.

**\*HEAVENLY SPRUCE.** A chalet in the mountain, a window opened on a world of snow on the eve of Christmas. A branch of blue fir tree which cracks under the weight of the snow, we are invaded by the balsamic freshness of the conifer of the forest: blue fir tree and majestic pine mix in the afforested note sandbank of the cedar.

**BORNEO TEAK WOOD.** A woody, exotic fragrance, soft and warm, a rich, complex composition where all the scents of Eastern countries are to be found; a dry cedar note mixes with the spicy chords of nutmeg and cumin, warmed by amber.

**\*SWEET PEAR.** Delicious fruity tones of pear enveloped in a chord of vanilla and cinnamon, giving it a delicious warmth and studied charm. Recalls the delicious smell of baked pears just out of the oven.

**\*ORANGE CINNAMON.** A perfume in which fresh citrus sets off a harmonious blend of spices and candied fruits. The intensity of this blend is upheld by a base combining the purity of white musk with the sweetness of amber, and sandalwood.

**\*ALMOND PEAR.** "Poire Amande" is the lightest dance, a sarabande of sweet almonds whirling round pears that are so juicy, you could almost touch their delicate flesh. It is a sheer and tenderly delicious pleasure, the coming together of two perfectly complementary notes. If ever a scent could evoke sweetness, it would be Poire Amande, created by Lampe Berger.

**\*CRÈME BRÛLÉE.** First, there's a noise. The crack as the spoon breaks the thin crust of caramelized sugar to reveal the smooth creamy yellow beneath. This releases a smell like no other, both subtle and sensual: the sweetness of the slowly simmered milk, the fleshy fruitiness of the vanilla, the luxurious sugariness of the caramel. Then and only then, once your nose has flirted for long enough with the promise of physical pleasure, comes the tasting: the very slight bitterness of almond spreading over your taste buds, the velvety feel of cream rolling over your tongue. Crème brûlée is not just a dessert. It's almost a sin.

**PUMPKIN DELIGHT.** The top note of the orange pulp is mixed with the strong savor of cinnamon, clove and rum... In the heart, the softness of almond emphasizes the orange note of pumpkin. While in the background the delicacy of a honey and prune cookie with a subtly vanilla flavored, combined with the childish scent of licorice rolls.

**\*VANILLA GOURMET.** A cocktail of delicious notes bringing to mind all the richness of a newly split vanilla pod, with soft sweet notes (rum, star anise), a voluptuous centre (Bourbon vanilla pods) and an almond chocolate base (cocoa and Tonka beans).

**GINGERBREAD.** An Olfactory Delight. Enjoy being enticed into the heart of the magic atmosphere of Christmas markets... - Top notes, aniseed sweet notes (liquorice and rum) mix delightfully with the zesty fragrance of orange peel. - Middle notes the traditional spice combination (cinnamon, cloves and ginger). - Bottom notes, enticing notes of biscuit enhanced by a gentle mixture of honey and vanilla.

## The Essential Sense of well-being

EasyScent home, the new concept of LAMPE BERGER, is revolutionizing the way essential oils are diffused, using an all-new cold release system that maintains the full powers of essential oils well known for their aromachological benefits.

With 8 unique fragrances, each suited to a particular moment of the day, this new system is tailored to your home and you're every mood

All-new cold release system, EasyScent home shows a sober and refined design, thanks to Alnoor, a French designer, specialist in the luxurious universe and passionate for Decorative Arts and Fragrancing. Sensitive to colors, he imagined three different models with simple designs, with timeless and generous forms, for very decorative settings.

### Design Universe

The Sphere is a pure volume designed to melt into a habitat where high-tech reigns.

This spherical diffuser boasts a star-shaped opening with six points, symbolizing the DNA of this new technology and taking on the shape of the refill it contains.

### Contemporary Universe

The Cube offers a breath of fresh air and a new olfactory horizon. The top metal grid that releases the fragrance through a 6-branch pattern suggests an ornamental and refined spirit. The Cube fits into contemporary lines as well as in ethnic décor.

### Natural Universe

The Pebble evokes lapping waves, the benefits of the ocean, and zen gardens: it embraces the entire philosophy. The mineral shape features floral cutouts, through which the fragrance is released. Naturally, this pebble is ideally suited to a relaxing universe such as a bathroom. The Pebble is available in "Etretat" grey or beige, two colors brought to earth by a slightly grainy texture

Each diffuser is presented in box set containing:

- the diffuser
- 2 rechargeable batteries
- 1 free 20-hour Fragrance EasyScent™ home Refill
- 1 charger

Ambience fragrances create atmosphere and bring well-being. In fact, they represent the original use of perfumes. EasyScent™ home fragrances are real indoor fragrances made of essential oils and alcohol-free fragrances. It is their combination that gives the EasyScent™ home fragrances all their originality and the olfactory quality of great indoor perfumes.

Toning, relaxing, or sensual, aromachological fragrances with EasyScent™ home preserved essential oils can accompany you during every moment of your life.
